Dear Ma'am & Sir,

As you are aware that Ministry of Women and Child Development is administering the Protection of Children from Sexual Offences (POCSO) Act enacted in 2012 (as amended in 2019) to protect all children below the age of 18 years from sexual crimes. A disproportionate number of the victims are girl children between the age of 13-18 years. These girl child victims sometimes fail to receive timely help and support especially during and after pregnancy due to social stigma attached to them.

2. In order to address the above gaps, the centrally funded scheme namely "**Scheme for Care and Support to Victims under Section 4 & 6 of the Protection of Children from Sexual Offences (POCSO) Act, 2012**" from NIRBHAYA fund is therefore, being introduced to address the challenges faced by the minor pregnant girl child victims and fills the gaps of the existing schemes for implementation by the State/UT Governments.

3. The main objective of this Scheme is to provide integrated support and assistance to minor pregnant girl child victims under one roof and to facilitate their immediate, emergency and non-emergency access to a range of services for long term rehabilitation in terms of access to education, police assistance, medical (also comprising maternity, neo-natal and infant care), psychological, mental health counseling, legal support, Non-Institutional Care support, place of stay in CCI/Aftercare facilities and health insurance cover for the girl child victim and her new-born under one roof to enable access to justice and empowerment of such girl child victims.

4. The Guidelines of the Scheme are enclosed for implementation by the States/UTs. The Guidelines will also be available on the Ministry's website i.e. www.wcd.nic.in and on Mission Vatsalya Portal i.e. <https://missionvatsalya.wcd.gov.in>.

5. I shall be grateful, if you kindly take necessary action for implementation of the "**Scheme for Care and Support to Victims under Section 4 & 6 of the Protection of Children from Sexual Offences (POCSO) Act, 2012**".

With regards,

Yours Sincerely,

1. Introduction:

The Protection of Children from Sexual Offences (POCSO) Act was enacted in 2012 as amended in 2019 to protect all children below the age of 18 years from sexual crimes. As sexual crimes are unfortunately associated with social stigma for the victims, a large number of cases remain unreported denying justice to victims. However, with mandatory reporting provision under the POCSO Act, the reporting of cases has increased. During the last three years on an average as per NCRB reports, 29472 cases have been registered under section 4 and 6 of the POCSO Act, 2012. Of these, on an average 29188 are cases where the victim is a girl child. These girl child victims often fail to receive timely help and support. Therefore, this needed to be addressed on priority.

Additionally, Section 4 and Section 6 of the POCSO Act cover the offence of rape where the punishments are severest (Section 5 is aggravated form of rape titled as "Aggravated Penetrative Sexual Assault" under POCSO Act where the punishment includes death penalty for the offender). In many of these cases, girls become pregnant and bear several physical and mental health concerns, which are further aggravated when they are disowned or abandoned by their own families or are orphaned. This centrally funded scheme from NIRBHAYA fund is therefore, being introduced to address the challenges faced by the minor pregnant girl child victims and fill the gaps of the existing schemes. The scheme shall be implemented through the State/UT Governments.

And becomes pregnant due to such assault or rape is covered under the Scheme. The Scheme shall extend support to every minor pregnant girl child victim.
